BIG OIL POOL ON WEST SIDE OF THIS COUNTY

THE UNION OIL COMPANY OPENED A RICH FIELD ON UP-
PER BLAINE.

The tests to which the oil wells in the "Upper" Blaine territory, on west side of Lawrence-co., have been subjected since the pipe line was built to that field indicate that the pool is very productive. The sand has the necessary thickness to hold an immense deposit of the valuable fluid. The pipe line is pumping regularly now and the wells are promptly re-filling the tanks and finding it an easy task.

Pioneer Developers.
The Union Oil & Gas company is the pioneer developer of this promising field. Frank M. Millikin, a capitalist and banker of Indianapolis, and A. B. Ayers of the same place, own practically all of the stock of the company. Mr. Ayers has given this development his personal attention for more than a year. He is a practical oil man and is handling the business in a successful and energetic manner, pushing the enterprise to the limit. It has been a hard time to do development work because of the scarcity of labor and material of all kinds. Also, the Blaine field is rather inaccessible on account of the lack of roads. But in the face of all the difficulties the Union company has moved forward.

Through strenuous efforts the Cumberland Pipe Line company was induced to extend its line to this property, a distance of about 25 miles. The oil is going to market every day.

Big Pressure Plant.
Also, the Union company has several gas wells of large capacity and a 200,000 pumping plant has been installed to send it to market. The gas goes into the central Kentucky lines. We suggest that some day it may be diverted to Louisa to take the place of the higher priced product now supplied here.

The Berea Grit.
This gas and oil is found at a depth of about 800 feet in what is pronounced by experts to be the Berea grit. Nineteen wells have been drilled without a failure, each producing oil or gas in paying quantities. Some of the oil wells are making near 100 barrels each per day. The Berea is a sand that produces 30 years or more.

Village of Ayers.
A postoffice named "Ayers" has been applied for to be established at headquarters of the property. Seven cottages are being constructed there and a nice little village will be in existence there before long.

This company owns 19,000 acres of leases in a block. Drilling is being done as rapidly as contractors and supplies can be procured.

Other Development.
In the same field a few other wells have been drilled, some of them good, showing an important extension of the field. Dr. V. V. Adkins, of Ashland, is the latest operator to get a good well there. Other leases will be developed soon. H. G. Wellman and B. E. Adams, of Louisa, have a well almost to the sand.

Upper Blaine has a great oil field, so far as it is known at this time, and the credit for its discovery and development is due Ayers and Millikin, who spent a lot of money before they got a dollar back. Mr. Millikin is interested in many business enterprises, and owns and operates 2500 acres of fine farming land near Indianapolis. He is rated very high in business circles. Mr. Ayers is a successful, progressive, hustling business man. He will make Louisa his headquarters and already is showing a lively interest in our city's welfare.

OIL ADVANCES 15 CENTS PER BARREL

The price of oil has been advanced fifteen cents per barrel in Kentucky, bringing it up to \$2.85, the highest ever paid in this state. The Pennsylvania grade has been advanced to \$4.25.

Most of the operators in the Lawrence county field contend that the Pennsylvania price should be paid for the Berea oil produced here.

It has been predicted for some time that the Kentucky price will reach three dollars very soon.

While oil is being produced in enormous quantities in Texas, the quality is not equal to ours, and the demand for the by-products of the oil from this field is very strong.

FOSTER NOT ALLOWED TO SPEAK
Johnstown, Pa.—W. Z. Foster, secretary of the steel workers' strike committee, was escorted from this city by a committee consisting of striking mill men and business men.

Foster was scheduled to make an address in a labor temple and a large crowd awaited his appearance there. When he alighted from an east bound train he was met by the special committee.

REV. CHAMBERS PLACED.
Rev. H. O. Chambers has been assigned to work as pastor of the church at Greer, S. C., and will take up his duties there at once.

John Estep Dies at Louisa of Influenza

The death of John Estep occurred Sunday night at his home here and was caused by double pneumonia following influenza. He had been sick only a few days.

Mr. Estep had lived in Louisa a few years except for a short time spent in Catlettsburg. He was in the produce business and was well known through the county.

He was about fifty years old and leaves a wife and two children, two brothers and one sister, Mrs. Joe Payne, of this place.

The burial took place at the old home place near Mattie.

DISCHARGED FROM NAVY.
John H. Burgess returned to his home at Kile, this county, last Friday, having been discharged from the navy after a service of sixteen months. He was on the seas the greater part of the time and made several trips across the ocean.

MRS. ROBERTS' FUNERAL.
Funeral services for Mrs. W. Jay Roberts were held Friday morning at ten o'clock at the residence, Rev. J. T. Pope officiating. Burial took place in Pulaski cemetery.

Walter, one of the grown sons, arrived in time to attend the funeral but Herbert was not located.

DISTRICT SUPERINTENDENT.
We are informed that Mr. F. E. Wright has been made district superintendent for the Cumberland Pipe Line company, with headquarters at Louisa. This is a bit of welcome news to Louisa and vicinity.

OFFICIAL RESULTS IN ELECTION HELD NOVEMBER 4TH

Morrow's majority in Kentucky is something near 30,000.

The lower House of the Kentucky Legislature has a small Republican majority, four or six. The Senate is Democratic by 2.

The Statewide prohibition amendment has been carried by a safe majority, probably about 10,000.

In Other States.

Maryland and New Jersey elected Democratic Governors to succeed Republicans now in office.

In Massachusetts the Republican Governor was re-elected.

New York elections favored the Republicans in most cases.

In Ohio the chief interest was in the wet and dry issue. There were three propositions on this subject. The wet won on two, but the ratification of the federal amendment is lost by only 642 votes and the dry will ask for a recount. The proposition to repeal the statewide law enacted last year resulted in a dry victory by a large majority.

Cattle Price Again At Topmost Record

Chicago.—Cattle prices today equalled the topmost record ever known, \$20.59, a hundredweight for choice beef steers. The same grade of meat supply brought only 9 cents a pound three years ago.

Today's purchase was intended for New York hotels.

Scarcity of cattle, especially choice kind, was the generally accepted reason for today's advance in prices.

TRUE AMERICAN MINERS RETURNED TO WORK IN DEFIANCE OF UNION

Columbus, Ohio, Nov. 10.—What is declared to be the first break in the ranks of striking union men in the Ohio coal fields came Sunday night, when 132 steam shovel workers, employed in "stripping" coal at Hope-dale, near Steubenville, voted to go back to work, and sent notice to their international union officials that "further instructions to quit work should not be sent."

They also declared that they would destroy their union cards before they would quit work in defiance of the Government.

Their action followed an address by United States District Attorney Stuart Bolin, in which he explained the position of the Government in the coal strike.

PAYING UP BAD CHECKS.
Wm. Pease, employed in the oil field near Louisa for awhile, cut loose with cold checks about two weeks ago and caught several merchants and other persons here. Then he went to Ashland and loaded up with liquor and spent all the spoils. G. J. Carter located him there and had him returned here and placed in jail. Yesterday he got the money from home to pay up those who proceeded against him.

MARRIAGE LICENSES.
James Certain, 19, to Della Skaggs, 16, of Terryville.

Bartley Uriel Chaney, 44, of Sardinia, Ohio, to Gypsy Spears, 39, of Fort Gay.

Luther Lemaster, 24, to Leona Richie, of Louisa.

Luther Webb, 22, to Maud Jobe, 21, of Osle and Gladys.

James Payne, 44, to Belva Jordan, 23, of Adams.

Lennie Steel, 18, to Fannie Moore, 16, of Sored Wind.

OIL WELL MACHINE SHOP BUYS LOTS HERE FOR PLANT

The Cliff Machinery & Boiler Company has purchased from A. O. Carter two and one-half lots in the J. W. Yates addition, on which a building will be erected at once for a large machine shop and boiler repair plant.

The lots are adjacent to the long railroad side track and the location is ideal for the business.

The oil development has reached the stage in this county and valley where a plant to do this special line of work is imperative.

These people will begin shipping in some of the heavy machinery immediately.

Louisa is an excellent point for this business, not only for the Lawrence county but for all the development up Big Sandy and along the Tug river. The amount of oil well and mine repair work that will come to this point is enormous.

R. E. Bernie, one of the proprietors, is here arranging the details. He will be in Louisa permanently.

John B. Horton, of Louisa, Engages in Newspaper Business at Hazard, Ky.

John B. Horton, of Louisa, is a stockholder and also prominently identified with a company that has bought the only newspaper at Hazard, Perry county. He will be editor of the paper, starting with the issue of this week. We learn that the plant is a good one and the prospects for the success of the business are good. Hazard is a prosperous and up to date city of about 6000 population and there is room for one good newspaper. Mr. Horton is ambitious and energetic and has literary talent that will be quite an asset to the business. We commend him to the good people of Perry county and urge them to extend liberal support, without which they can not hope to have a good newspaper.

He is a son of Mrs. Mary B. Horton and a grandson of Judge R. T. Burns, one of our honored citizens and one of the most prominent lawyers our county has had. John seems to have inherited the literary tastes of his grandfather.

Early in the war John enlisted and served to the end. He was overseas for quite a long time. He will be found on the right side of questions affecting the welfare of humanity, exerting an influence for good at all times. We wish him full measure of success.

OFFICIAL COUNT IN LAWRENCE COUNTY

The official count in this county shows a different result from the figures given out last week. Morrow's majority is 274, Ballard 242, and the other State officials 235. Shannon's plurality in Lawrence is 137 instead of 108.

One Democratic precinct had been left out of the figures published last week.

Catt precinct failed to certify the prohibition amendment. Without it the county gave a dry majority of 924. The officers have been notified to certify the result, which will increase the dry plurality.

The vote of both parties was short by a large percentage. The highest vote for a Republican candidate was 1645, while the normal vote is between 1800 and 1900. The largest vote for a Democrat was 1371. It is usually around 1700.

The constitutional amendment to remove officials who permit prisoners to be taken by mobs carried by a vote of 607 to 186.

The road tax lost, 593 to 725.

PAVED STREETS TO MARK NEW ERA

When Louisa gets paved streets she will permit no city of the same size to claim any superior advantages. It is predicted that she will go forward with a strong and rapid growth. The bonds voted last week will give us the paving.

There are several reasons for this, amongst which may be named the fact that:

It is the gateway to the Tug and Levisa coal fields.

Headquarters for the Big Sandy oil fields.

Center of the only Berea oil production in Kentucky.

Shipping facilities by two railroads and a river with locks and dams.

Best town in Eastern Kentucky.

Good churches and schools.

Choice residence town.

Natural gas for fuel.

Coal in abundance.

LOUISA HEIRS TO A FARM IN MISSISSIPPI

Fred See has returned from Mississippi where he has been looking after a farm in which he and his brothers and sisters have inherited an interest. A great-uncle, who had never been married, died recently without a will. The farm is said to be very valuable.

DRILLING TOOLS ARE VERY BUSY IN LAWRENCE COUNTY

The extremely wet weather for the last four or five weeks made the work of moving and handling drilling outfit very difficult in some places, but contractors are pushing their work right along. The next two weeks will see a number of completions in the Louisa field.

A well on John B. Thompson's farm near Busseyville has come in and looks to be about an average well for that field.

Gas Well Producing Oil.
One of the gas wells on Calnes creek in the Cherokee section of this county has begun to flow oil. This will probably result in more rapid development of that neighborhood. One of the natives who has been using gas from a well there found his supply cut off and in a short time oil began to flow into the stove.

J. L. Richmond has purchased a drilling outfit and it is being shipped here. Also, he has ordered another, due to arrive early in December. He will drill the first well on the 100 acre tract recently bought by Conley and Burgess from DeWitt Diamond.

Tom Williamson Gets Insurance of His Brother Who Was Killed in Battle

There is no longer any doubt about Arlie Williamson, colored, having been killed in France. Official report of this fact did not arrive until recently. Conflicting reports had come to his home in Louisa. The other colored soldiers from here doubted the report that Arlie had been killed until it was finally confirmed by the government.

He was insured for ten thousand dollars for the benefit of his brother Tom, who was rejected by the army on account of physical disability. Tom will receive \$57.50 per month.

Thus it will be seen that the colored youth did a thing that many white soldiers refused to do—sacrifice their lives. He was a son of George and Tillie Williamson, respectable colored people of Louisa who died years ago.

TRAINMEN THREATEN ANOTHER STRIKE

And now come the railroad engineers and conductors demanding an increase of 40 per cent in wages and with a threat to strike if they do not get it. And the public must pay the bill.

This is perhaps as good a time as will ever come to settle with the un-American outlaws who are leading labor into anarchy and into destruction. The temper of the public is just about right to put these fellows where they belong. Even Congress seems to be up to the point of enacting legislation long needed but always rejected because the politicians of that body were afraid of the un-American votes. With wages higher than ever before known the trainmen would tie up the railroads in a demand for a huge ransom.

The high cost of living is no good reason in their case. It is only an excuse. If they and all other classes, including the returned soldiers, will go to work and quit interfering with the production of needed goods the high cost of living will soon be reduced. Strikers and slackers are doing more to cause high prices than any other class.

A large percentage of men are not giving honest service in their jobs. This is always true in times of high wages and prosperity. One manufacturing firm that we know of is employing the same number of men it used eight years ago. The men are receiving nearly twice as much wages as then, but the production of the factory is just 50 per cent of what it was at that time. The men work as little as they please and defy their employers because the union protects them in their dishonest practice and prevents their discharge. The excessive cost is added to the price of the goods and we, the people, pay it. And we are getting very tired of the injustice.

As we have often said before, unions honestly and fairly conducted would be valuable to the working classes, but they invariably become the tools of professional organizers and anarchist leaders who are too lazy and dishonest to work. The power of the union is then shamefully abused. Good American citizens who have joined are intimidated when the leaders decide to strike and they are forced to stop work when they would prefer to continue.

Railroad strikes should be prohibited by national law. Men who do not want to work at railroading should go into other lines where they can strike without ruining the entire country. Railroad trains are absolutely essential to the life of the country and its citizens and must be kept running.

Price of Paper Now Higher Than Ever

The price of white paper used by daily and weekly newspapers is now more than three times as high as before the war, and the prediction is made that it will reach about five times the former price. Not only is this true, but paper is getting so scarce that it may be impossible to buy it at any price within the next few months.

In view of the situation the large daily newspapers have bought the entire products of the large mills for the year 1920. This increases the scarcity so far as the general trade is concerned and makes an alarming situation. Lack of labor and the enormous wages demanded are said to be the chief causes.

FEDERAL CHARGE WAS NOT PROVED AGAINST LEE DOLLARHIDE

Frankfort, Ky.—Holding that the offense of breaking into a store in which a postoffice is located does not constitute the offense of breaking into the postoffice, United States Commissioner Wair released Lee Dollarhide, of Johnson county, who was held on the charge of breaking into the postoffice. Dollarhide had served a year in the penitentiary here on the charge of breaking into the store. As he was leaving the penitentiary gate he was arrested. He was given his examining trial and Commissioner Wair feels that the offense of breaking into the store had no connection with the postoffice. Dollarhide left for his home.

U. S. CASUALTIES TOTAL 293,089.
Washington, Nov. 11.—In the midst of the celebration to-day of the anniversary of the signing of the armistice, the tragedy of war again was emphasized by announcement of a revised list of American casualties, showing a total of 293,089.

The list includes 34,625 killed in action, including 882 lost at sea; died of wounds, 13,956; died of disease, 23,692; died of accidents and other causes, 5,326; wounded in action, 215,489; missing in action, 2.

THREE MORE KENTUCKIANS FLY OVER WASHINGTON

Washington, Nov. 10.—Three more Kentuckians took airplane journeys over Washington to-day. Frank Fields, son of Congressman W. J. Fields, 8th district, and Misses Sue Leonard, Jackson, and Vada Cartee, Olive Hill, flew over the city in a large passenger airplane.

Harp Concert by the Franklin Family

In Cincinnati on Thursday evening of this week a harp concert was announced to take place at the Gibson Hotel. Three of the performers are Mrs. Myrtle Chapman Franklin and daughter, Miss Imogene, and son C. W. Franklin, of Dayton, Ky. That they are finished musicians is attested by the fact of this public appearance along with other harpists of Covington and Cincinnati. Miss Imogene has pursued her musical studies in New York and is a very accomplished vocalist as well as harpist.

Mrs. Franklin is a native of Louisa and she and her genial husband, Mr. Will Franklin, are well known to many of our people, all of whom are interested in their success.

MILTON WROTEN TRANSFERRED TO KANSAS CITY, MO.

Milton J. Wroten has been in the service of the Automobile Underwriters Association of America ever since his discharge from the army. Recently he was promoted and placed in charge of the office in Kansas City, Mo. His mother, Mrs. Mary Wroten, will go there soon to live with him. They have been in San Antonio, Texas, since his return from France.

THE NEW BAKERY.

The Lobaco company has its new bakery in full operation. Every machine is run by electricity. The plant is equipped with every improvement and all kinds of labor saving devices, making it economical and efficient in operation.

The retail room and soft drink parlor will be a very handsome place when finished. The entire enterprise is a valuable asset to the city.

U. S. COURT ORDERS COAL STRIKE CALLED OFF BY OFFICIALS

Judge Anderson, of the United States court at Indianapolis, heard the case against the officials of the coal miners union last Saturday, instituted by the government. He ordered the officials to call off the strike by Tuesday noon. The union officials held long sessions behind closed doors, but finally issued an order calling off the strike.

This order has been complied with to some extent, but the worst element of the miners show a stubborn attitude and are not yet back at work.

The leaders were defiant before the court took action and almost declared they would not abide by the decision in advance. But the positive language in which Attorney General Palmer answered these declarations, and the warnings he gave them brought them to time.

Judge Anderson declared from the bench that this strike was the "most lawless thing I ever saw in my life. I consider this rebellion. The government is supreme even to the labor union."

The government was determined to use all its power to suppress this anarchistic movement and the action is heartily approved by the public.

BOOST THE BOND ISSUE TO BE VOTED ON DECEMBER 20

The petition for a bond issue to build good roads in Lawrence county calls for four roads. One to the Morgan-Elliott line by way of Blaine; one to Boyd and Carter; one to Johnson county, and one to Martin county. These all are inter-county seat roads, such as are entitled to receive aid from the State and nation. With the aid that is expected from these sources this bond issue should build the shortest of these roads to the county lines and the others almost to the lines.

Based upon a casual estimate made by a State Road engineer who has been building hard roads in southeastern Kentucky, Lawrence county could build these roads as far as suggested above.

This would put a hard road along side or within easy reach of 75 to 80 per cent of our population. And when this shall be accomplished the rest will be done within a reasonable time.

Costs You Nothing Extra.
Bonding Lawrence county to build roads will not increase the taxes of the citizens and therefore will not cost them an extra dollar. Not only so, but the state and nation makes us a present of hundreds of thousands of dollars. The expenditure of nearly a million dollars in the county for building these roads will give everybody a chance to share in the prosperity resulting therefrom. Then we get the good roads which is the greatest advantage of all. And all this without paying any more taxes than we are now paying without getting any results.

Who would be unwise enough to vote against a bond issue for roads under all these conditions?

The money will not be squandered or grafted or unwisely spent. State and government engineers locate and supervise the building of the roads and the Fiscal Court has appointed an advisory board of citizens to confer with the court on the work.

The vote is to be taken at the regular voting place in each precinct in Lawrence county on Saturday, December 20th. Boost it. Old Lawrence will be one of the best counties in the world if good roads are built. With the oil, and the productive valleys, and the hills suitable for grazing and orchards, along with other resources and opportunities that await only the good roads, this county will become a garden spot, worthy of the best citizenship in the universe.

Important Court Decision.
The Appellate Court of Kentucky has just rendered a decision that makes the handling of State Aid money much easier and more practical.

Affirming the Ballard Circuit Court, in the case of J. A. Short and others against the Fiscal Court of Ballard-co., the Court of Appeals ruled that a Fiscal Court is not obligated to appropriate the state aid fund for the completion of any particular inter-county seat road.

On the contrary, it decided that the Fiscal Court had the right to place the state aid funds in the general road fund and use it in the maintenance and construction of any roads in the county to which the Fiscal Court sees proper to apply.

TRUANT OFFICER FOR LOUISA SCHOOLS

The Louisa Board of Education has contracted with the City Marshal to act as truant officer and the fact has been announced in all the school rooms. He is instructed to look into every case of absence from school and the pupil must have a legal excuse to escape the penalty.

Judge Cisco instructed the grand jury, at the last term of Circuit Court, to indict school boards for failure to enforce the compulsory education law. Therefore, it is necessary to get busy and see that every boy and girl within the required age attends school every day, or that they be taken into court for failure to do so.

MOVIE MEN TO 'SHOOT' 'UNCLE JOHN' SHELL IN NATIVE HAUNTS

Lexington, Ky., Nov. 10.—E. P. Weisner, movie agent, passed through Lexington to-day on his way to Greasy creek, Leslie-co., with a camera man to "shoot" "Uncle John" Shell, the oldest man in the world, who celebrated his one hundred and thirty-first birthday in Lexington September 3.

"Uncle John" will wander about his premises while the movie men will turn the crank, telling him what they want him to do. It is understood "Uncle John" is anxious for the picture makers to come.

An effort also will be made to obtain "shots" of Sgt. William Sandlin, who lives near "Uncle John." Sandlin has a war record of killing twenty-four Germans in

We are informed that Mr. F. E. Wright has been made district superintendent for the Cumberland Pipe Line company, with headquarters at Louisa. This is a bit of welcome news to Louisa and vicinity.

OFFICIAL RESULTS IN ELECTION HELD NOVEMBER 4TH

Morrow's majority in Kentucky is something near 30,000.

The lower House of the Kentucky Legislature has a small Republican majority, four or six. The Senate is Democratic by 2.

The Statewide prohibition amendment has carried by a safe majority, probably about 10,000.

In Other States.

Maryland and New Jersey elected Democratic Governors to succeed Republicans now in office.

In Massachusetts the Republican Governor was re-elected.

New York elections favored the Republicans in most cases.

In Ohio the chief interest was in the wet and dry issue. There were three propositions on this subject. The wets won on two, but the ratification of the federal amendment is lost by only 542 votes and the dries will ask for a recount. The proposition to repeal the statewide law enacted last year resulted in a dry victory by a large majority.

Cattle Price Again At Topmost Record

Chicago.—Cattle prices today equalled the topmost record ever known, \$20.59, a hundredweight for choice beef steers. The same grade of meat supply brought only 9 cents a pound three years ago.

Today's purchase was intended for New York hotels. Scarcity of cattle, especially choice kind, was the generally accepted reason for today's advance in prices.

TRUE AMERICAN MINERS RETURNED TO WORK IN DEFIANCE OF UNION

Columbus, Ohio, Nov. 10.—What is declared to be the first break in the ranks of striking union men in the Ohio coal fields came Sunday night, when 132 steam shovel workers, employed in "stripping" coal at Hopevale, near Steubenville, voted to go back to work, and sent notice to their International Union officials that "further instructions to quit work should not be sent."

They also declared that they would destroy their union cards before they would quit work in defiance of the Government.

Their action followed an address by United States District Attorney Stuart Bollin, in which he explained the position of the Government in the coal strike.

PAYING UP BAD CHECKS.

Wm. Pease, employed in the oil field near Louisa for awhile, cut loose with cold checks about two weeks ago and caught several merchants and other persons here. Then he went to Ashland and loaded up with liquor and spent all there and had him returned here and placed in jail. Yesterday he got the money from home to pay up those who proceeded against him.

MARRIAGE LICENSES.

James Certain, 19, to Della Skaggs, 16, of Terryville.
Bartley Ullrich Chaney, 44, of Sardinia, Ohio, to Gypsy Spears, 29, of Fort Gay.
Luther Lemaister, 24, to Leona Richie, of Louisa.

Luther Webb, 22, to Maud Jobe, 21, of Osage and Gladys.

James Payne, 44, to Belva Jordan, 23, of Adams.

Lionel Steel, 18, to Fannie Moore, 18, of Sacred Wind.

OIL WELL MACHINE SHOP BUYS LOTS HERE FOR PLANT

The Cliff Machinery & Boiler Company has purchased from A. O. Carter two and one-half lots in the J. W. Yates addition, on which a building will be erected at once for a large machine shop and boiler repair plant. The lots are adjacent to the long railroad side track and the location is ideal for the business.

The oil development has reached the stage in this county and valley where a plant to do this special line of work is imperative.

These people will begin shipping in some of the heavy machinery immediately.

Louisa is an excellent point for this business, not only for the Lawrence county field, but for all the development up Big Sandy and along the Tug river. The amount of oil well and mine repair work that will come to this point is enormous.

R. E. Bernie, one of the proprietors, is here arranging the details. He will be in Louisa permanently.

John B. Horton, of Louisa, Engages in Newspaper Business at Hazard, Ky.

John B. Horton, of Louisa, is a stockholder and also prominently identified with a company that has bought the only newspaper at Hazard, Perry county. He will be editor of the paper, starting with the issue of this week. We learn that the plant is a good one and the prospects for the success of the business are good. Hazard is a prosperous and up to date city of about 6000 population and there is room for one good newspaper. Mr. Horton is ambitious and energetic and has literary talent that will be quite an asset to the business. We commend him to the good people of Perry county, without which they can not hope to have a good newspaper.

He is a son of Mrs. Mary B. Horton and a grandson of Judge H. T. Burns, one of our honored citizens and one of the most prominent lawyers our county has had. John seems to have inherited the literary tastes of his grandfather.

Early in the war John enlisted and served to the end. He was overseas for quite a long time. He will be found on the right side of questions affecting the welfare of humanity, exerting an influence for good at all times. We wish him full measure of success.

OFFICIAL COUNT IN LAWRENCE COUNTY

The official count in this county shows a different result from the figures given out last week.

Morrow's majority is 274, Ballard 242, and the other State officers 235. Shannon's plurality in Lawrence is 137 instead of 105.

One Democratic precinct had been left out of the figures published last week.

Catt precinct failed to certify the prohibition amendment. Without it the county gave a dry majority of 224. The officers have been notified to certify the result, which will increase the dry plurality.

The vote of both parties was short by a large percentage. The highest vote for a Republican candidate was 1645, while the normal vote is between 1800 and 1900. The largest vote for a Democrat was 1371. It is usually around 1700.

The constitutional amendment to remove officials who permit prisoners to be taken by mobs carried by a vote of 607 to 186.

The road tax lost, 593 to 725.

PAVED STREETS TO MARK NEW ERA

When Louisa gets paved streets she will permit no city of the same size to claim any superior advantages. It is predicted that she will go forward with a strong and rapid growth. The bonds voted last week will give us the paving.

There are several reasons for this, amongst which may be named the fact that

It is the gateway to the Tug and Levisa coal fields.
Headquarters for the Big Sandy oil fields.

Center of the only Berea oil production in Kentucky.

Shipping facilities by two railroads and a river with locks and dams.

Best town in Eastern Kentucky.

Good churches and schools.

Choice residence town.

Natural gas for fuel.

Coal in abundance.

LOUISA HEIRS TO A FARM IN MISSISSIPPI

Fred See has returned from Mississippi where he has been looking after a farm in which he and his brothers and sisters have inherited an interest. A great uncle, who had never been married, died recently without a will. The farm is said to be very valuable.

DRILLING TOOLS ARE VERY BUSY IN LAWRENCE COUNTY

The extremely wet weather for the last four or five weeks made the work of moving and handling drilling outfits very difficult in some places, but contractors are pushing their work right along. The next two weeks will see a number of completions in the Louisa field.

A well on John B. Thompson's farm near Busseyville has come in and looks to be about an average well for that field.

Gas Well Producing Oil.

One of the gas wells on Caines creek in the Cherokee section of this county has begun to flow oil. This will probably result in more rapid development of that neighborhood. One of the natives who has been using gas from a well there found his supply cut off and in short time oil began to flow into the stove.

J. L. Richmond has purchased a drilling outfit and it is being shipped here. Also, he has ordered another, due to arrive early in December. He will drill the first well on the 100 acre tract recently bought, by Conley and Burgess from DeWitt Diamond.

Tom Williamson Gets Insurance of His Brother Who Was Killed in Battle

There is no longer any doubt about Arbie Williamson, colored, having been killed in France. Official report of this fact did not arrive until recently. Conflicting reports had come to his home in Louisa. The other colored soldiers from here doubted the report that Arbie had been killed until it was finally confirmed by the government.

He was insured for ten thousand dollars for the benefit of his brother Tom, who was rejected by the army on account of physical disability. Tom will receive \$57.50 per month.

Thus it will be seen that the colored youth did a thing that many white soldiers refused to do—insure their lives. He was a son of George and Tillie Williamson, respectable colored people of Louisa who died years ago.

TRAINMEN THREATEN ANOTHER STRIKE

And now come the railroad engineers and conductors demanding an increase of 40 per cent in wages and with a threat to strike if they do not get it. And the public must pay the bill.

This is perhaps as good a time as will ever come to settle with the un-American outlaws who are leading labor into anarchy and into destruction. The temper of the public is just about right to put these fellows where they belong. Even Congress seems to be up to the point of enacting legislation long needed but always rejected because the politicians of that body were afraid of the un-American votes. With wages higher than ever before known the trainmen would tie up the railroads in a demand for a huge ransom.

The high cost of living is no good reason in their case. It is only an excuse. If they and all other classes, including the returned soldiers, will go to work and quit interfering with the production of needed goods the high cost of living will soon be reduced.

Strikers and slackers are doing more to cause high prices than any other class.

A large percentage of men are not giving honest service in their jobs. This is always true in times of high wages and prosperity. One manufacturing firm that we know of is employing the same number of men it used eight years ago. The men are receiving nearly twice as much wages as then, but the production of the factory is just 50 per cent of what it was at that time. The men work as little as they please and defy their employers because the union protects them in their dishonest practice and prevents their discharge. The excessive cost is added to the price of the goods and we, the people, pay it. And we are getting very tired of the injustice.

As we have often said before, unions honestly and fairly conducted would be valuable to the working classes, but they invariably become the tools of professional organizers and anarchist leaders who are too lazy and dishonest to work. The power of the union is then shamefully abused. Good American citizens who have joined are intimidated when the leaders decide to strike and they are forced to stop work when they would prefer to continue.

Railroad strikes should be prohibited by national law. Men who do not want to work at railroad should go into other lines where they can strike without ruining the entire country. Railroad trains are absolutely essential to the life of the country and its citizens and must be kept running.

THREE MORE KENTUCKIANS FLY OVER WASHINGTON

Washington, Nov. 10.—Three more Kentuckians took airplane journeys over Washington to-day. Frank Fields, son of Congressman W. J. Fields, 9th district, and Misses Sue Leonard, Jackson, and Vada Cartee, Olive Hill, flew over the city in a large passenger airplane.

Harp Concert by the Franklin Family

In Cincinnati on Thursday evening of this week a harp concert was announced to take place at the Gibson Hotel. Three of the performers are Mrs. Myrtle Chapman Franklin and daughter, Miss Imogene, and son C. W. Franklin, of Dayton, Ky. That they are finished musicians is attested by the fact of this public appearance along with other harpists of Covington and Cincinnati. Miss Imogene has pursued her musical studies in New York and is a very accomplished vocalist as well as harpist.

Mrs. Franklin is a native of Louisa, and she and her genial husband, Mr. Will Franklin, are well known to many of our people, all of whom are interested in their success.

MILTON WROTEN TRANSFERRED TO KANSAS CITY, MO.

Milton J. Wroten has been in the service of the Automobile Underwriters Association of America ever since his discharge from the army. Recently he was promoted and placed in charge of the office in Kansas City, Mo. His mother, Mrs. Mary Wroten, will go there soon to live with him. They have been in San Antonio, Texas, since his return from France.

THE NEW BAKERY.

The Lobaco company has its new bakery in full operation. Every machine is run by electricity. The plant is equipped with every improvement and all kinds of labor saving devices, making it economical and efficient in operation.

The retail room and soft drink parlor will be a very handsome place when finished. The entire enterprise is a valuable asset to the city.

U. S. COURT ORDERS COAL STRIKE CALLED OFF BY OFFICIALS

Judge Anderson, of the United States court at Indianapolis, heard the case against the officials of the coal miners union last Saturday, instituted by the government. He ordered the officials to call off the strike by Tuesday noon. The union officials held long sessions behind closed doors, but finally issued an order calling off the strike.

This order has been complied with to some extent, but the worst element of the miners show a stubborn attitude and are not yet back at work.

The leaders were defiant before the court took action and almost declared they would not abide by the decision if adverse. But the positive language in which Attorney General Palmer answered these declarations, and the warnings he gave them brought them to time.

Judge Anderson declared from the bench that this strike was the "most lawless thing I ever saw in my life. I consider this rebellion. The government is supreme even to the labor union."

The government was determined to use all its power to suppress this anarchistic movement and the action is heartily approved by the public.

Price of Paper Now Higher Than Ever

The price of white paper used by daily and weekly newspapers is now more than three times as high as before the war, and the prediction is made that it will reach about five times the former price. Not only is this true, but paper is getting so scarce that it may be impossible to buy it at any price within the next few months.

In view of the situation the large daily newspapers have bought the entire products of the large mills for the year 1920. This increases the scarcity so far as the general trade is concerned and makes an alarming situation. Lack of labor and the enormous wages demanded are said to be the chief causes.

FEDERAL CHARGE WAS NOT PROVED AGAINST LEE DOLLARHIDE

Frankfort, Ky.—Holding that the offense of breaking into a store in which a postoffice is located does not constitute the offense of breaking into the postoffice, United States Commissioner Walrd released Lee Dollarhide, of Johnson county, who was held on the charge of breaking into the postoffice. Dollarhide had served a year in the penitentiary here on the charge of breaking into the store. As he was leaving the penitentiary gate he was arrested. He was given his examining trial and Commissioner Walrd feels that the offense of breaking into the store had no connection with the postoffice. Dollarhide left for his home.

U. S. CASUALTIES TOTAL 293,089.

Washington, Nov. 11.—In the midst of the celebration to-day of the anniversary of the signing of the armistice, the tragedy of war again was emphasized by announcement of a revised list of American casualties, showing a total of 293,089.

The list includes 34,625 killed in action, including 382 lost at sea; died of wounds, 13,955; died of disease, 23,692; died of accidents and other causes, 5,326; wounded in action, 216,489; missing in action, 2.

BOOST THE BOND ISSUE TO BE VOTED ON DECEMBER 20

The petition for a bond issue to build good roads in Lawrence county calls for four roads. One to the Morgan-Elliott line by way of Blaine; one to Boyd and Carter; one to Johnson county, and one to Martin county. These are all inter-county seat roads, such as are entitled to receive aid from the State and nation. With the aid that is expected from these sources this bond issue should build the shortest of these roads to the county lines and the others almost to the lines.

Based upon a casual estimate made by a State Road engineer who has been building hard roads in southeastern Kentucky, Lawrence county could build these roads as far as suggested above.

This would put a hard road along side or within easy reach of 75 to 80 per cent of our population. And when this shall be accomplished the rest will be done within a reasonable time.

Costs You Nothing Extra.

Bonding Lawrence county to build roads will not increase the taxes of the citizens and therefore will not cost them an extra dollar. Not only so, but the state and nation makes us a present of hundreds of thousands of dollars. The expenditure of nearly a million dollars in the county for building these roads will give everybody a chance to share in the prosperity resulting therefrom. Then we get the good roads which is the greatest advantage of all. And all this without paying any more taxes than we are now paying without getting any results.

Who would be unwise enough to vote against a bond issue for roads under all these conditions?

The money will not be squandered or grafted or unwisely spent. State and government engineers locate and supervise the building of the roads and the Fiscal Court has appointed an advisory board of citizens to confer with the court on the work.

The vote is to be taken at the regular voting place in each precinct in Lawrence county on Saturday, December 20th. Boost it. Old Lawrence will be one of the best counties in the world if good roads are built. With the oil, and the productive valleys, and the hills suitable for grazing and orchards, along with other resources and opportunities that await only the good roads, this county will become a garden spot, worthy of the best citizenship in the universe.

Important Court Decision.

The Appellate Court of Kentucky has just rendered a decision that makes the handling of State Aid money much easier and more practical.

Affirming the Ballard Circuit Court, in the case of J. A. Short and others against the Fiscal Court of Ballard county, the Court of Appeals ruled that a Fiscal Court is not obligated to appropriate the state aid fund for the completion of any particular inter-county seat road.

On the contrary, it decided that the Fiscal Court had the right to place the state aid funds in the general road fund and use it in the maintenance and construction of any roads in the county to which the Fiscal Court sees proper to apply.

TRUANT OFFICER FOR LOUISA SCHOOLS

The Louisa Board of Education has contracted with the City Marshal to act as truant officer and the fact has been announced in all the school rooms.

He is instructed to look into every case of absence from school and the pupil must have a legal excuse to escape the penalty.

Judge Cisco instructed the grand jury, at the last term of Circuit Court, to indict school boards for failure to enforce the compulsory education law. Therefore, it is necessary to get busy and see that every boy and girl within the required age attends school every day, or that they be taken into court for failure to do so.

MOVIE MEN TO 'SHOOT' 'UNCLE JOHN' SHELL IN NATIVE HAUNTS

Lexington, Ky., Nov. 10.—E. P. Welner, movie agent, passed through Lexington to-day on his way to Greasy creek, Leslie county, with a camera man to "shoot" "Uncle John" Shell, the oldest man in the world, who celebrated his one hundred and thirty-first birthday in Lexington September 3.

"Uncle John" will wander about his premises while the movie men will turn the crank, telling him what they want him to do. It is understood "Uncle John" is anxious for the picture makers to come.

An effort also will be made to obtain "shots" of Sgt. William Sandlin, who lives near "Uncle John." Sandlin has a war record of killing twenty-four Germans in one day.

AGED MAN INJURED IN AN AUTOMOBILE ACCIDENT

Winchester, Ky.—J. G. Johns, 80 years old, had recovered from slight injuries received when he was struck and rendered unconscious by an automobile driven by Roger Swops Saturday afternoon. Mr. Johns in crossing the street was struck by the car, which skidded when the driver endeavored to turn aside.

RALLY DAY AT MT. ZION.

Report of State Baptist Missionary Rally Day, observed at Mt. Zion church by the Sunday School a few weeks ago. The delay in publishing occasioned by misunderstanding.

This grand rally day will be recorded as a great day in Missionary work in our country. Occasion entered into by entire school with burning Missionary zeal and ardor in the hearts of all. Profound interest, co-operation and enthusiasm throughout the entire service. What a training for service. Truly boys and girls of today are the coming men and women of tomorrow. The hour has come to us at a nation. If the world be won for Christ, all Christendom must unite in one great forward movement. Evangelize hourly. Redemption of the heathen world would accomplish this great desire. Witnessing great scene, a life's vision panorama, a world's view of Missionary field, seemed opened up to hundreds assembled there. God was there in glory and power, vision felt on every hand. A good program was effectively rendered. Attendance large, between four and five hundred. Church was beautifully decorated. A stage had been erected for the grand occasion. Day was successful, spiritually and financially. Offering \$26.00 delivered to Missionary Board.

Address by pastor, Rev. Hall, was of deep spiritual force to all, explaining the object of the day. Also leading us out in the seventy-five million dollar campaign all Southern Baptist using their greatest forces for World's Missionary movement, uniting in great forward movement with world's churches, preparatory for world wide revival.

A large choir under efficient leadership of Prof. Matthias Rice, together with faithful organist, Mrs. Billie Vanborn, rendered throughout service some of the most beautiful music we have ever heard.

After program closed short addresses were made by Rev. Cleveland and by the District Secretary.

We high commend Mr. and Mrs. Allen Ross, together with Miss Amanda Sutton, Miss Armita Moore, and all others for their many weeks of tireless training, which made the day a grand success. May a rich inheritance be theirs. We owe much to Mr. John Ross, one of the oldest pillars of the church, for welcoming this grand assembly.

Kentucky Publicity Director

The organization of Southern Baptists for the raising of 75 million dollars for all phases of work fostered by this people has now been pushed out until all of the 18 Southern states have followed the suggested organization Kentucky is not behind in the number for in the 76 district associations there are now 70 associational organizers 74 associational publicity men and 66 W. M. U. organizers. It is the purpose to have one of each of these in each association and then in the local church there will be an organizer in addition to the pastor, who is the director, a W. M. U. organizer and three boosters, who will do the publicity work. The organization has also extended until practically all of the 1,856 Baptist churches in Kentucky have these officers in charge and every effort is now being made to bring information and prepare for the great drive which will be made in one week's time, the date of which is November 30th to December 7th.

The state organization is in charge of Rev. O. E. Bryan, Corresponding Secretary of Missions Louisville, Ky. Prof. John L. Hill, of Georgetown College, State Organizer and Director Georgetown, Ky., and Rev. J. R. Black Publicity Director, Louisville, Ky.

At the general office in Louisville the most encouraging news is being continually received. The people all over the state are so enthusiastically about the campaign that from every quarter responses are now coming and some churches cannot wait for the drive to be made but are now pledging and giving more than was asked of them. The last message received was from Poplar Grove church in Graves county, which was asked for \$5,000 and after a sermon by the pastor pledges were made and the amount was more than raised. This has been done in many other places.

The information that is coming to the Baptists is probably one of the greatest benefits that is being derived from the campaign. A pastor in a mountainous association who had been preaching for over thirty years and had always maintained a position against the support of the ministry and who did not believe in missions stated at the meeting of the district association which he attended that he had learned more in this meeting of what God intended he should do to send the gospel to the other side, as well as to his neighbor, than in all his life before. A layman who had never given to missions or much for any object of the church, said he wanted to give \$200 a year for the five years of the campaign. A railroad man upon hearing the call gave at once a fifty dollar Victory bond and said this was not to be counted as his part when the drive was made. From these to a great gift of \$30,000 by Mr. George E. Hays of Louisville the Baptist people are being reached and are enthusiastic to have a part in the great undertaking.

The one day in October that will be emphasized above all other days is the fourth Sunday, October 26th, which is the day set aside and known as the day for "Calling Out the Called." Kentucky expects to have at least 300 young people to dedicate their lives for special religious work on this day. Ministers, pastors, Sunday school workers, pastors' assistants, and B. Y. P. U. workers will hear the call for these different lines of service on this day.

One of the most hopeful signs that the Baptists have is the fact that the Southern Baptist Theological Seminary had on October 1st the largest opening of any in the past three years. The W. M. U. Training School at Louisville had 123 young ladies enrolled for special training. Everywhere the campaign has gotten first place in the thinking of the Baptists, and at this time Kentucky Baptists are going forward to do a little of what they have been waiting many years to do.

LIFT OFF CORNS!

Apply few drops then lift sore, touchy corns off with fingers

Doesn't hurt a bit! Drop a little Freesone on an aching corn, instantly that corn stops hurting, then you lift it right out. Yes, mag! A tiny bottle of Freesone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses without soreness or irritation. Freesone is the sensational discovery of a Cincinnati genius. It is wonderful.

SKAGGS

The big rains and floods in Big Blaine creek have caused much damage here to corn and fodder.

Since our last letter the death angel visited the home of our neighbor Alonso E. Lyon and took from them their darling son, Victor. He was 2 years, 8 months and 2 days old. The disease that caused his death was diphtheria, which is so fatal among children. He bore his suffering bravely and although so young he seemed to realize the end was near and wanted his mother to sing. She started quite a few of the lullaby songs she had so often sang but he kept telling her that was not the one until she started "I'm Going Back to Jesus." That was the one he wanted and the little fellow joined in and helped to sing. He acted all the time through his sickness like a child five or six years old. All was done that loving hands could do, but little Victor was too good to live in this sinful world and has gone to live with Jesus. Quite a crowd was out Sunday to see the oil well shot. It was indeed a great blow out.

W. A. Sparks of Charleston, W. Va., is here. He is stopping at P. P. Holbrook's.

The oil well drillers are boarding at Ben Ferguson's. Uncle Nelson Sparks and wife have moved to P. P. Holbrook's and will make their home there.

YOUR COLD EASED AFTER FIRST DOSE

"PAPE'S COLD COMPOUND" THEN BREAKS UP A COLD IN A FEW HOURS.

Relief comes instantly. A dose taken every two hours until three doses are taken usually breaks up a severe cold and ends all the gripple misery.

The very first dose opens your clogged-up nostrils and the air passages in the head, stops nose running, relieves the headache, dullness, feverishness, sneezing, soreness and stiffness. Don't stay stuffed-up! Quit blowing and snuffling! Clear your congested head! Nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only a few cents at any drug store. It acts without assistance, tastes nice, contains no quinine—insist upon Pape's!

TUSCOLA

Farmers are gathering corn and hauling coal getting ready for Grim Winter.

KEEP YOUNG

People with bad backs and weak kidneys are apt to feel old at sixty. Many old folks say Doan's Kidney Pills help them keep young. Here's a Louisa case:

Mrs. J. W. Yates, Lock Ave., says: "I have been greatly benefited by Doan's Kidney Pills in the last few years and I consider they have been the means of keeping me in such fine health in my old age. At times my kidneys have become weak, causing a distressing ache through the small of my back. I have had dizzy spells and headaches, too. I have always taken Doan's Kidney Pills for these complaints and never once have they failed to relieve me in a short time."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Yates had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

KEPT HER AWAKE

The Terrible Pains in Back and Sides. Cardui Gave Relief.

Marksville, La.—Mrs. Alice Johnson of this place, writes: "For one year I suffered with an awful misery in my back and sides. My left side was hurting me all the time. The misery was something awful."

I could not do anything, not even sleep at night. It kept me awake most of the night. I took different medicines, but nothing did me any good or relieved me until I took Cardui.

I was not able to do any of my work for one year and I got worse all the time, was confined to my bed off and on. I got so bad with my back that when I stooped down I was not able to straighten up again. I decided I would try Cardui.

By time I had taken the entire bottle I was feeling pretty good and could straighten up and my pains were nearly all gone.

I shall always praise Cardui. I continued taking it until I was strong and well. If you suffer from pains due to female complaints, Cardui may be just what you need. Thousands of women who once suffered in this way now praise Cardui for their present good health. Give it a trial.

Of what practical benefit is our government, including our system of courts, if 95 per cent of the population cannot be protected against a hold-up by four per cent? And the greater part of this four per cent is made up of foreign anarchists.

Work—steady, honest work by everybody, is the only cure for the many ills this country is now suffering from. It will reduce the high cost of living. It will give all a share in the prosperity that would follow. Work will bring contentment. Idleness is the father of unrest and discontent.

If the party had followed the lead of Lawrence county in the primary and nominated Judge Carroll the result would have been different. "He can win in November" was the slogan used, and this expressed the calm judgment of those who supported Judge Carroll in this county.

Intelligent coal miners should have no difficulty in seeing that only the organizers and union officials prosper on strikes. They must stir up trouble and bring on strikes occasionally to keep the union alive and their salaries going. These agitators are the worst enemies the laboring men have. The Big Sandy miners should tie a can to every one of the loafers that comes into their midst.

Victor Berger, Socialist elected to Congress from Milwaukee, hotbed of anarchy, was denied his seat in the House on a charge of disloyalty. There was only one vote in his favor, another un-American member from Wisconsin. Berger should be deported, along with the other 500 or more the government has rounded up for shipment.

Public sentiment everywhere one goes is overwhelmingly against the present strikes. On the trains the subject is almost the only thing discussed. The condemnation of labor leaders who are endorsing the strikes, and the foreigners engaged in them, is so bitter that it means if the problem is to be fought out now it will find the public lined up to the limit for law and justice. The public is the great sufferer from the strikes and especially this time when wages are already far above normal.

Coal miners who will work like the good farmer, or the merchant, or any man in the vocations that engage 80 per cent of our people, can make more money at the present scale of wages than in any of those other pursuits. The trouble is the good Americans engaged in mining are in the minority and they do not assert themselves in the union meetings in behalf of what they know to be right. The violent element of foreign blood takes the power of the union into its hands and says to the public: "Hold up your hands and give us extra money for less work, or we will freeze and starve you to death."

How much longer will the good people of the United States stand for this? Judge Anderson and Attorney General Palmer, backed by President Wilson, are doing exactly the right thing.

A Noble Use of Wealth.

The Mayo Brothers, of Rochester, Minn., accounted among the world's greatest surgeons, whose wonderful skill has restored thousands of afflicted people to health, have announced that henceforth the bulk of their great wealth will be used in the cause of humanity.

An extensive hospital building is to be erected, in addition to those already in use, where the sick and the afflicted, unable to pay for treatment, can receive it "without money and without price."

In making the announcement of their benefaction the brothers use these noble words: "The great wealth we have is not our own. It is the product of human suffering, and we will give it back that others may receive healing and that young doctors may go far beyond what we have in their aid of human suffering."

As this high purpose on the part of these splendid men speaks for itself, comment is hardly necessary. It is proper, however, that this sanctified use of wealth should have the commendation it really deserves. The spirit which has prompted this generous act toward suffering humanity is doubtless the same in character as that which was manifested by the Great Physician who had pity for the sick and did what he could to relieve them. All honor, therefore, to these noted surgeons who have heard the cry of the suffering poor and are doing what they can to take them the needed help.—S. S. Vistor.

M. E. CHURCH SOUTH.

Sunday School 9 o'clock.
Morning service 10:30.
Evening service 6 o'clock.
Prayer meeting Wednesday 6 p. m.
Bible Class Thursday 6 p. m.
A cordial invitation is extended every one to attend these services.

Rev. James D. Bell and family arrived from South Carolina Saturday. He entered at once upon his duties as pastor of the Louisa church. Sunday morning he preached his first sermon to a good sized congregation and made a very favorable impression. His preliminary remarks were interesting, practical, and in good taste. The subject was very properly chosen for the beginning of his ministry here and was one embracing the fundamental facts and principles of the Christian religion. His application of the truth as the only cure for the unrest in the world at the present time was forceful and timely. He declared that no other remedy except the religion of Jesus Christ will remove from the hearts of men the selfishness and injustice that results in the serious differences between labor and capital that are now causing so much trouble.

At night his text was "Ye are the salt of the earth." He admonished the church members that they have upon them the great responsibility of saving the world. Each one exerts influence over others and it must be rightly directed. Mr. Bell emphasized the importance of standing up against the things in politics, society, and everyday life that tend toward putrefaction—the "salt of the earth" is to save the people from putrefaction.

The M. E. Church joined in the service Sunday night in honor of the new preacher. Also, members of other congregations were present.

The evening hour for church services has been changed to six o'clock. Prof. Kennison's Bible class meets at 6:30 Thursday evening.

Choir practice will be held Friday evening, beginning at 5:30. All who will help are requested to be present. One hour will be the limit as the session will close at 6:30.

The Junior Missionary Society met on Saturday afternoon with Anna Milly Miller, Marie and Mary Olive Bell, daughters of Rev. and Mrs. J. D. Bell, were among those attending the meeting.

FLOODS IN LICKING.

Lexington, Ky., Nov. 8.—As a result of the flood in the Licking Valley, affecting Morgan and Magoffin counties, Ky., sweeping away corn, feed and in many instances livestock, rendering many people destitute, Mrs. Nancy Maxey, of West Liberty, Morgan-co., Ky., has petitioned the Red Cross of Kentucky for aid.

The letter was received by Miss Lida Hafford, executive secretary here, last evening, and it was stated that steps would be taken at once to send relief.

ELECTION FOR BOND ISSUE TO-BUILD ROADS.

At a regular term of the Lawrence County Court begun and held at the Court House in Louisa, Lawrence County, Kentucky, on the 30th day of October, 1919, with Hon. Billie Riffe, regular Judge, presiding.

Upon this day came 150 and more, legal voters and free holders and residents of Lawrence county, Ky., and filed with the Judge of the Lawrence County Court, Billie Riffe, the following petition:

To the Honorable Judge of the Lawrence County Court: We the undersigned legal voters, free holders and residents of Lawrence county, Kentucky, do hereby respectfully request that you order a special election in said county on Saturday, December 20, 1919, for the purpose of voting upon the question whether or not the Fiscal Court of Lawrence county, Ky., shall issue bonds to the amount of Two Hundred and Fifty Thousand Dollars for the specific purpose of constructing four inter-county seat hard or paved roads, each of said roads to have the same annual mileage of construction, until complete to their destinations, the location and the route of each of said four roads to be as follows:

One road from Louisa up the Point, the most direct and practical route to the Martin county line.

One road up Lick creek and across the Patrick Gap, to the Levisa river road and up the Levisa river road to Georges creek, thence the most direct and practical route to the Johnson county line.

One road from Louisa to the Morgan county line by way of Blaine.

One road from Louisa, the most practical route to the Riffe cross roads on East Fork by way of Miller Branch, thence to the Boyd county line.

Whereupon and pursuant to the filing of the above said petition it is ordered that an election be held in Lawrence county, Kentucky on Saturday, December 20, 1919, upon the question: "Are you in favor of issuing \$250,000 in Bonds for the purpose of building roads and bridges?" It is therefore ordered by the court that Wm. Taylor, Sheriff of Lawrence county, advertise said election and the object thereof for at least thirty days next before the day thereof in some newspaper having the largest circulation in the county and also by printed hand bills posted up at not less than four public places in each voting precinct in the county and at the Court House door.

W. M. TAYLOR, Sheriff.

LETCHER TEACHER REMOVED FOR DEALING IN WHISKY

Frankfort, Ky., Nov. 10.—Dealing in and drinking intoxicating liquors were the grounds upon which County School Superintendent E. B. Hale removed George Holbrook, a school teacher of Letcher-co. Holbrook has appealed his case to Superintendent of Public Instruction Gilbert, who has not had time to go into the case.

Evidence taken in the case, while not proving that Holbrook operated a moonshine still, showed that on numerous occasions he had been seen in the vicinity of a still at Weedy Gap, on the Laurel Fork of the North Fork of the Kentucky river. Several witnesses testified that they had seen Holbrook about the still and that on one occasion a teacher saw him seen in front of the still and that later Holbrook appeared carrying the satchel.

Superintendent Hale revoked Holbrook's teacher's certificate on the grounds of immoral conduct, one charge being that he was dealing in and drinking intoxicating liquors.

MISS ELIZABETH OSBORN.

The Williamson, W. Va., News of Tuesday gives the following account of an accident there. Miss Osborn has many friends in Louisa where she lived a few years. All hope for her early recovery.

Miss Elizabeth Osborn, formerly a teacher in our schools, and for the past twenty months in charge of the Home Service Section of the Red Cross in this county, was run down by the motor truck of the Southern Express Co. yesterday afternoon about four o'clock and was severely injured.

Miss Osborn was on her way to the depot to go to Huntington to a hospital for appendicitis, and was walking on the sidewalk when the truck came on the walk and struck her, the driver having lost control of the machine. Her collar bone was broken and she was severely bruised and was unconscious for several hours. Dr. Salton was called and rendered medical assistance and took her to Kessler hospital on train No. 3 last night, and reports from her state she is getting along very well and will probably be able to leave the hospital within a few weeks. Her misfortune is deeply regretted by her many friends in this city and all join in wishing her a speedy recovery.

PAROLE TWO SERVING SENTENCES FOR MURDER

Frankfort, Ky., Nov. 8.—John Gibson, Boyd-co., serving a life sentence in the penitentiary for the murder of Lillian Phillips, was paroled to-day by the Board of Control of Charitable and Penal Institutions. Gibson was convicted on the evidence of his small brother, Harry Gibson, who swore that John Gibson had killed the girl. Later Harry Gibson made an affidavit which was filed with the board, stating that he knew nothing about the killing. Gibson was convicted in 1901.

A parole was also given to Sam Holton, Breathitt-co., who was serving a five years sentence. Governor Stanley had commuted Holton's sentence to one year.

RAW FURS WANTED AT HIGH PRICES

We give any shipper 50 per cent at fur house more than he can get by shipping. No. 1 winter caught opossum \$1.00; No. 2, 65c; No. 3, 35c; No. 4, 20c. No. 2 skunk, extra, \$3.50; No. 3 muskrat, 75c; No. 2, \$1.00; No. 1 beaver hide 60 lbs. and over, green salted 28c. No. 1 big horse hide, Norman, \$10.00; pony, \$5.00. We forfeit \$50 every time we fail to pay the price. We buy \$10,000 worth every year of furs and hides and wool is why we are on the job. Four grades on skunks, four on possum pelts, two on muskrats. Any house making over these robes you. All trappers, hunters, and shippers—we are backed by big fur dealers and wholesale dealers and a million friends is where we have the advantage over little one horse shippers.

We have \$40,000 rating in Dun and Bradstreet. We pay income tax. We explain plain to you shippers. Do not worry if you send your furs to Big Blaine Produce Co., later fur house that does business in winter, fall, rain, or shine. With every dollar we get we do good business. We buy in quantities and ship in quantities. When we get a good man we stick to him and bank account grows. We started Oma Green near head of Tarklin who now has store full of groceries. He pays sky high prices for butter and big white eggs. He is going to put money in savings bank. He is honest and his father is honest. He sold for us. Take him your eggs and butter and hides.

And my young brother at Chandler, 3 miles from our eight miles this side of Paintsville, honest and reliable, has a store of all sorts of fresh, up-to-date groceries, pure lard, Arbuckle coffee and ten grades of coffee ground. Four pound ground coffee for one dozen white or yellow eggs. He is high buyer, butter 30c lb., No. 3 muskrat, 75c; No. 2, \$1.00; No. 2 war stripe skunk, extra large, \$3.50; No. 2 possum extra 75c. He pays you 25c lb. green hides.

At Blaine, Ky., we sell middling \$3.50 per hundred. Big stock Rome beauty apples 5c, oranges and lemons; ice cold pig 10c; gingeralls 15c. Travelers want to feed horses, 10 big ears corn only 15c, tubs and boxes to feed in. Hot stove to warm by plenty of fresh cheese, bologna sausage, apricots and canned peaches and any kind of lunch at rock bottom prices. Cans in 200 Birdseye matches 3c box, 3 plugs tobacco 25c; 3 plugs 10c cut 25c at any of our little one horse stores. We sell 10 lbs. cheese at wholesale price. We save you the freight. We are big buyers in tobacco. Buy only in quantity so we may sell at right prices to our customers and do only cash and produce business. We keep no books.

We buy the best flour on the market and sell fine meal. Went buy anywhere else only from Big Sandy Milling Co. They buy good corn and make fine meal. Some mills buy rotten corn and make meal not fit to use. We sell Eggmaize—2 lbs. 50c. It makes hens lay all winter.

ILLITERACY WORKERS MET.

Frankfort, Ky.—Representatives from six districts into which the State has been divided for the illiteracy campaign met here Tuesday.

With Mrs. Cora Wilson Stewart, chairman of the Kentucky Illiteracy Commission.

The last census of Kentucky showed 200,000 illiterates in this state. When Mat B. Sewell, as State Inspector and Examiner made a report on the Kentucky Illiteracy Commission last January he estimated that there were 100,000 illiterates in Kentucky. The Commission hopes to reduce this number by January 1920 to 50,000.

JOHNSON-PAYNE WEDDING AT HOME OF THE BRIDE

The Frankfort Journal says:—This
home of Mr. and Mrs. Lucien S. John-
son on Conway street was the scene
of a beautiful wedding last night when
their daughter, Miss Rachel Zenetta
Johnson became the bride of Mr. H. P.
Mason Payne in the presence of a large
gathering of relatives and friends of
this couple.

The Rev. R. H. Weaver of Memphis,
Tenn., the stepfather of the bride-
groom, was the officiating minister.
There were no attendants, the bride
entering with her father, by whom she
was given in marriage.

The ceremony took place in the liv-
ing room, where an altar was formed,
ferns and palms intermingled with pink
roses and candlestick holding pink
candles. On each side of the altar
were white pedestals topped with bas-
kets of the roses and the same flower
was used in a variety of ways about
the room. The lights in the chandelier
were softened with a drapery of smilax
and pink tulle.

The bride was attired in a stylish
traveling suit of brown with picture
hat to match. Her flowers consisted of
a corsage bouquet of orchids.

Following the ceremony an informal
reception was held, the bridal couple
leaving immediately afterward for a
short wedding trip before going to Lex-
ington to make their home.

The decorations in the dining room
carried out the general color scheme of
pink, and roses in this shade combined
with smilax were used. The refresh-
ment table held as a centerpiece the
wedding cake, and from the chandelier
above the table fell a shower effect
of the roses and tulle, from which stream-
ers of the tulle extended to the four
corners of the table, where they were
caught in butterfly bows. Vases of the
roses and candelabra holding pink ta-
pers placed at the corners of the table
added to the pretty effect of the scene.
The confections also were in the pre-
dominant color.

Among the out of town guests pres-
ent were the Rev. Weaver and Mrs.
Weaver of Memphis, Mr. Sam John-
son of Vanceburg, Mrs. Mary Horton
and Misses Sallie and Caroline Burns
of Louisa, Miss Josephine Harkins and
Mrs. Jillson of Prestonsburg.

Mr. and Mrs. L. Yeager and daugh-
ter, Miss Carroll, of Thealka, visited
Mr. and Mrs. R. C. Burton last Sun-
day. They spent part of the after-
noon seeing the town. They are very
favorably impressed with Louisa and
say the only thing it lacks of being
ahead of any town on the Big Sandy
is paved streets. Mr. Yeager is min-
istoreman for the North-East Coal Co.
Miss Carroll is one of the teachers in
the public school of Paintsville.

Lobaco
Bread

We use Fleischmann's Yeast exclusively because they are helping place the baking business on a clean basis.

BREAD

The War proved the value of bread. It was white bread which helped make our soldiers the finest in the world.

OTHER foods have their value, but it is Bread which is the real man's food and it is truly the staff of life. But there are differences in Bread. Some Bread is more wholesome than others. You have missed Lobaco Bread. You have found it different from other Breads. There is a reason. Lobaco Bread is made at all times with a blend of three flours from as many different wheat sections.

1 We never use a substitute. Every ingredient that goes into Lobaco Bread is the best that money can buy. Why we even use butter, because it makes it richer and Bread which keeps better.

1 We will be baking again November 1st. You will begin to buy this Bread then. When you do, always demand the fifteen cent loaf, because it is the economy loaf. When you place a small piece of dough into an oven at a temperature of 450 degrees the heat is so great that it "dries" out as fast as it bakes out. The result is an unbalanced loaf of Bread. The heat resistance in a fifteen cent loaf is equal. It is the best balanced Bread on earth. Do not buy a small loaf when you can get a large one. Try this experiment yourself and see which will keep better after you cut it. You will find the larger loaf will keep twice as long.

1 Watch for the Lobaco Bread signs. Come and go through our plant. We have something to show you which will make you our permanent customer.

OBITUARY

Queens Ridge, W. Va.
A loving father and a kind husband, who spent the early part of his life in Lawrence county and had many friends and relatives there, who will be interested in the following, was Pharrner Wiley, age 62 years. His death came so suddenly it was a great shock to his many friends. He had lived here for several years, having moved from Lawrence county, Ky., to Wayne county, W. Va.

Bro. Wiley was loved by all who knew him. His life was of purity and that we all should follow. He never was a wicked man, always seemed to be ever ready to do what was right and to abstain from evil. He was a member of the Baptist church and had lived a constant christian for 40 years. He always met you with a smile and always had a kind word for every one. To meet him was never to forget him but to love him.

He was married to Emzeta Pack, daughter of Sam Pack, and to this union were born seven children, four sons and three daughters. All the children were present at the death of their father except the baby boy Milton. As he was a traveling man they couldn't get him located. The children present were Mrs. James Karney, of Queens Ridge, Mrs. Flem Wellman, of Lookout, Ky., Mrs. Jno. Nelson, John Wiley, S. F. Wiley and T. B. Wiley of Huntington, W. Va. This family is so good and kind to each other that their home was almost a paradise of love and kindness.

This dear father was sick eleven days with heart trouble. Everything that willing hearts and kind hands could do was done to save him, but the end came. God, who does all things well, called him home to that celestial city where all the righteous dwell. His dear wife and loving children stood over him day and night until the end. He told them in his last hours not to grieve for him for he was going home to glory. He exhorted them all to live for heaven which he felt sure they were doing. We who knew and loved this dear father do not look on him as being dead, but only fallen asleep in sweet Jesus and when the great day of deliverance comes we expect to meet him with the great host of angels that Christ will bring with him to claim his own.

Brother Wiley lived in Mingo county when he died but he told them before he died he wanted to be brought back to Wayne county for burial.

Our sympathy is with the bereaved family. His body was laid to rest in the Mountain Home cemetery.

Beautiful Valley

Beautiful, Oh! beautiful valley
Of the clear and swift Marrowbone,
Among thy gifts of nature
A countless world love to roam.

Up from this beautiful valley
A lofty mountain rises;
Its rugged cliffs and tree-tops
Seem to meet the skies.

Its rocks are covered with mosses,
And from the earth grow ferns,
Every traveler in this valley
A lesson of nature learns.

At the foot of this lofty mountain
Is where lonely Selwyn lies;
Huge walls and rough old towers
Seem to meet the skies.

And so it dwelt in this valley
More peaceful year by year,
When suddenly strange protents
Of some great dread seemed near.

Even this beautiful scenery
And gifts of nature dear,
Never could drive from this very soul
A feeling of awful fear.

Far from her home and kindred
A happy maid had fled
To serve in a Selwyn cottage
And toll for daily bread.

She loved the beautiful valley,
Swift water that dashed away,
After in her lonely cottage
Where she busily spent the day.

She served kind and gentle as master,
Nor asked for rest or change;
Her friends to be all new ones,
Their speech seemed to her very strange.

And sitting at the evening fireside
She listened to stories of old—
Of ghosts and haunts of Selwyn
Till the blood within her ran cold.

Before her eyes came visions,
With trembling haste she fled;
In her heart came spookish fear
As she silently went to bed.

She lies near her little window,
And gazes on the moon so dim;
Then swooning away in slumber
She dreams of her home again.

HOME CIRCLE COLUMN

The Community's Debt to the Schools.

Fifty, perhaps twenty-five years ago, people were discussing the debt which the school owed to the community. It was not an uncommon thing for a bragging tax-payer to boast of the fact that the teachers of the schools were indebted to him for their daily bread—to make even the teachers feel that they were paid their wages mainly through the charity of the community in which they taught. The schools in the small towns and villages were rude structures with no conveniences. The people would have considered it a sinful waste of money to put in modern improvements, such as scientific laboratories, gymnasiums and special vocational courses. Even in the cities when these things were granted, it was usually with the air of humoring a few foolish dreamers.

But how these ideas have changed in the past few years! A good school is a live wire in any community. They have a greater connection with the outside world than almost any other unit in the community and their spirit is more widely felt. If that spirit is a boasting spirit the results are surprising. After graduation the students go their various ways—some to college or professional schools—some to farm or otherwise make their living in other communities. If they go with a spirit to boost their home town what a tremendous advantage it is for that town. Think of the people they will meet who are perhaps looking for just such a town. And the teachers, what of them? They are constantly changing their positions, and if you have treated them as you should and they see that your town is a live and growing thing they are not going to keep still about it when they go to another community to teach. Neither will they keep still if the opposite condition is true.

This is only one of the advantages of good schools—and we might say a minor one. Think of the good citizens your school gives you. Think how it builds up your young people's civic pride—how it teaches them right thinking and right living. And it is only by right thinking and right living that we can ever hope to achieve success for ourselves or for our town or for our country. Don't grow "hard-shelled" toward the blessings of a good school in your community, for they are many and varied.

Many young people, and older ones too for that matter, take a very strange attitude toward their work—their "jobs" perhaps we should say. In the first place, since those of us who have to work for a living spend the greater part of our lives at it, our work should interest us, or our lives will not interest us. Most of us are actually working at least eight hours a day, and eight hours we spend in sleep supposedly. That leaves us eight hours to eat, tend to a few necessary things, and get what amusement we can out of life, supposing that we find our work uninteresting. Knowing this, why is it that so many people take work simply for a job and they do not seem to care particularly whether it interests them or not. It is merely a job, and they look forward to closing time as if it meant a release from prison. Now there are plenty of jobs in the world, jobs to fit all kinds of people, and you might just as well be enjoying those eight hours that you spend each day working, as to have them drag their slow and uninteresting way to an end. Get a job that fits you and then keep it.

This idea of changing jobs is a very wrong one but it is evidently quite common. It is a poor policy to follow for several reasons. In the first place, it is a poor recommendation to any employer. Even though you may have

left all your positions voluntarily it looks a little strange to him, and also he may not wish to hire anyone who is likely to "jump his job" at any minute. Then in the second place, if you change jobs so often, you never give one job time enough to develop so that you can really tell whether you like it or not. And you never give your employer time enough to develop you. Though you may have the greatest faith in your own powers, he knows nothing about them, and he's not going to take your word for it. You have got to show him by actual work what you can do, and that you are able to fill a higher position and claim a higher wage, before he is going to give it to you. So don't be in such a hurry to change. Get an interesting job and one for which you are fitted and you won't want to change.

True happiness is not found in straining one's strength, bruising one's hands, tearing one's flesh to reach some coveted goal way up on the rocky mountain side. It is found in stopping now and then to pluck a flower that grows beside the upward way. Today holds many beauties for those who will stop a minute to analyze and enjoy them. Tomorrow they may have fled away.

If people allow themselves to grow old at heart, they must not complain. If youth and enterprise push them aside. A young man at seventy is a possibility, and since the possibility exists, it becomes a duty.

Every druggist in town—your druggist and everybody's druggist has noticed a great falling off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place.

"Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," said a prominent local druggist.

Take "Dodson's Liver Tone" Instead!

Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle costs but a few cents, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tone is a pleasant-tasting, purely vegetable remedy, harmless to both children and adults.

Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel. Take a dose of calomel today and tomorrow you will feel weak, sick and nauseated. Don't lose a day's work! Take Dodson's Liver Tone instead and feel fine, full of vigor and ambition.

WEST VIRGINIA ITEMS OF NEWS

Convicted For Murder.

Bailly Plymale, 62, prominent resident of Logan-co., and postmaster at Christian, was convicted Saturday by the Circuit Court of Logan-co., of murder in the second degree for the killing of Sanford Morgan, also 62, a merchant of Cob creek, Wyoming-co., on October 1.

Plymale shot Morgan twice with a revolver and the latter died 45 minutes later.

Morgan was operating a saw mill in Logan-co., at the time, and the argument which led to the tragedy is said to have been over a settlement.

The conviction of Plymale will mean that he will spend from five to 18 years in the penitentiary. The plea for Plymale was self defense.

WAYNE ITEMS

First Visit Since War.

U. G. Waller, of Glenhayes, has been in the county visiting relatives for the first time since the close of the war. Waller had many thrilling experiences on transports, convoys and as an interpreter in a naval battery which participated in several major offensives. While on the Julia Luckenbach, a cargo transport, the vessel broke down, lost her convoy and was towed into Belle Isle off the French coast. After repairs the vessel was towed toward St. Nazaire by a tug, conveyed by submarines and destroyers. On the way to St. Nazaire the transport was torpedoed but was able to make port.

Waller was then transferred to the naval battery which operated twelve, fourteen and sixteen inch guns against the Germans. He is leaving Sunday for his east to rejoin his ship.

Gets New Appointment.

M. E. Ketchum of Kanova and formerly of Wayne, has resigned his position as state prohibition officer which office he has held for the past three years. Ketchum has been appointed prohibition officer of the national government and will maintain offices in Huntington where he will supervise the work of deputies who will cover the counties of Wayne, Cabell and Mingo whose efforts will be confined to the enforcement of the national prohibition amendment.

Damages From Rain.

Damage estimated at from \$60,000 to \$75,000 was done in Wayne-co. by the heavy rains which flooded Twelve Pole and its tributaries. This is one of the most severe losses ever sustained by Wayne farmers by high water.

The heavy rains raised Twelve Pole to one of the highest tides seen here in several years. Low bottom land all along the valley was washed clean of corn and pumpkins.

Among the heaviest losers in the vicinity of town were Dr. G. R. Burgess, Pat Bradshaw, Chas. E. Walker, Burnie Ferguson, S. P. Booton, Wm. Jackson, R. S. Sansom, J. W. Ketchum and Eadie Brumfield.

Some of the farmers of this section north of Wayne who were heavy losers in the flood are H. Adkins, H. C. Bloss, Edna Newman, G. M. Johnson, O. B. Carroll, J. D. Plymale.

Census Test.

Sixteen applicants took the census enumerators examination which was held in Wayne Saturday. Eighteen enumerators are the necessary quota to canvass Wayne county in the coming census.

The names of those who took the examination here are: Louis Mills, Wayne, R. 2; Edmund Napier, East Lynn; Claude Mathis, Wayne, R. 2; Doliver Spurlock, Wayne Route; Johnson M. Queen, Crum; Wm. M. Queen, Crum; Flen Booth, Herbert; J. D. Clay, East Lynn, Route; Chas. E. Counts, Roy; J. W. Mitchell, Wayne, R. 1; H. F. Fry, Stiltner; Allen Frasher, Fort Gay; J. T. Cornette, Radnor; Henry J. Johnson, Prichard, Route; Luke Peters, Fort Gay and C. R. Morrison, East Lynn, Route.

BROUGHT HERE FOR NEW TRIAL.

County Sheriff Sam Deborn arrived in Catlettsburg Sunday morning from the penitentiary in Eddyville having in custody Minard Estep of Barnett's creek who had been sentenced to death by electrocution for the killing of Frank Goodman in Ashland last spring. The Court of Appeals reviewed the case and granted Estep a new trial. Both men lived at Ashland at the time and according to the evidence at the first trial Goodman had won money from Estep in a card game and which caused the shooting.

Estep was locked up in the county jail. The trial will take place before Judge Halbert during the week—Ashland Independent.

With a view of future operations in the Williamson field, Chattahoochee people have organized the Wanago White Ash Coal company, with headquarters at Chattahoochee, this company having a total authorized capital stock of \$50,000. Active figures in the organization of the new company were J. O. Young, L. G. Bray, Andy New, Jr., H. V. Ingram and John H. Kidwell, all of Chattahoochee, W. Va.

To World Conference.

Among those who have been accepted as delegates to the Third World's Christian Citizenship Conference, which will meet in Pittsburgh, Pa., armistice week, November 9-16, 1919, is Rev. James F. Record, of Pikeville, Ky.

The purpose of the Conference is to seek to solve the moral and social problems of mankind by applying to them the principles of Christianity.

Pikaville College Notes.

The plans for the long talked of Athletic building on the campus of Pikeville college are now being pushed forward very rapidly. Mr. Smith has already a number of good carpenters at work.

The boys hope to play their first game of basketball this season in their new building, which will be about Thanksgiving.

A girls Glee Club has been organized by Miss Cantrell. Sixteen girls have joined the club and it is hoped that it will be a great success.

Rev. Ashley Entertains.

Our pastor delightfully entertained a few nights ago all the department committees of the Epworth League, M. E. Church, in the league room of the church. Rev. Ashley prepared and served supper without any assistance. Eighteen plates were served. A round table on committee work was then entered into. Our fourth vice president, Mr. W. R. Fuller, Jr., is quite active and a league basketball ball will be organized soon.

Presiding Elder.

Rev. W. H. Davenport conducted the first quarterly meeting of the year, Saturday night and preached both morning and evening on Sunday.

Methodist Church Enters Ypres and Brussels

GREAT MEMORIAL CHURCH WILL BE ERECTED IN DEVASTATED BELGIAN CITY.

Ypres to Be Center of Large Enterprises On the Part of Southerners.

Nashville, Tenn.—A great Methodist Church, erected and maintained by the Methodist Episcopal Church, South, will be erected amid the ruins of Ypres, in Belgium. This was stated by Dr. W. B. Beauchamp, director-general of the Centenary Commission, who, with Bishop James Atkins, the bishop in charge of European mission fields, just returned from Belgium.

The city of Ypres, terribly devastated, will not be rebuilt in its entirety. The once magnificent Cloth Hall, the finest in the world, the Cathedral, the town hall, the churches, and other large ruins will be left as a perpetual memorial.

On these the city mayor has caused signs to be erected reading: "This is holy ground. No stone of this fabric may be taken away. It is a heritage for all civilized peoples."

A City of Memorials.

Ypres is a city of memorials. The British government has selected a site and will erect a great museum as a monument to her fallen heroes.

Similar buildings will be built by Canada, New Zealand, Australia and Belgium.

In the midst of these memorials the Southern Methodist Church will be erected. It will contain a library, reading room and social equipment in addition to its auditorium and class rooms.

"Ypres will always be a mecca for travelers," said Dr. Beauchamp. "Thousands and millions will flock to that battlefield. Our Church will not only minister to the people of Ypres and the surrounding territory, but it will also serve these visitors."

Greet Plant in Brussels.

The Methodists have also purchased a great building in Brussels, which will be their headquarters for Europe. It will contain offices, an auditorium, reading and lecture rooms, a publishing plant and social equipment.

The general secretaries of the two Protestant bodies of Belgium, the state Church and the free Church, will have offices in this building, thus making it the Protestant center of Belgium.

Southern Methodists have also purchased a half interest in the Protestant hospital of Brussels. It will be enlarged and its capacity will be doubled.

Relief Stations Established.

Dr. Beauchamp reported that thousands of children will freeze to death this winter, because the Germans flooded the mines and filled them with concrete, thus making it impossible for the people to obtain fuel.

"Children, with their mothers," said Dr. Beauchamp, "are now living in the abandoned trenches and dug-outs left by the enemy."

In order to cope with this situation the Methodists have arranged to open relief stations at Ypres, St. Quentin, Montdidier, Belgrade and other points.

A full contingent of physicians, nurses, directors and social workers will be sent abroad as soon as they can be found.

The Church has a fund of \$5,000,000 for European construction work. This will be spent in Serbia, France, Belgium, Poland and Bohemia.

Revival Planned For Entire South

Widest Evangelistic Effort Ever Made Will Be Launched Soon.

Nashville, Tenn.—Plans for an evangelistic movement which will cover the entire South and operate in 20,000 churches at the same time are being formulated by the Centenary Commission and the evangelistic committee of the M. B. church, South.

Bishop U. V. W. Darlington is the chairman of the joint directing committee and Dr. O. E. Goddard is the executive secretary.

Standard Plan Made.

The movement will operate according to a standard plan. This plan provides for a preliminary survey of the entire South to discover what persons are not affiliated with any religious denomination.

Dr. A. C. Zumbrunnen is in charge of the survey, and he has made preliminary investigations in a large number of typical sections as samples to guide pastors in surveying their own fields.

When these surveys are completed the evangelistic movement will be launched in an effort to interest all non-church members whose names have been secured.

It has been estimated that half a million workers will be enlisted to personally interview the persons who have no church membership.

JUNIORS PLAN TO BE BROTHERS AND SISTERS TO WORLD CHILDREN

LITTLE brothers and sisters to all the children of the world—that's what the school boys and girls of America are going to be called from now on. The Junior Membership department of the Red Cross has a plan which will gather them all into this relationship. Even the smaller kiddies will be included.

In central Europe 200,000 children are starving—75,000 are hungry and homeless in Petrograd alone. Sixty per cent of the membership fees are to be sent to National Headquarters for a National Children's Fund to relieve suffering throughout the world.

In America, in smaller numbers, there are children in need of help. These unfortunate are not to be forgotten while the orphans of France and Belgium are receiving aid. The remaining forty per cent of the Junior fees, as well as any additional money raised by the school children, is to be expended for community activities.

Under this head there are many classes. Crippled children are to be found in almost any town, and the Juniors will help them to buy crutches or artificial hands and legs. Little folks in need of hospital or medical care will have American Red Cross Juniors ready to foot the bills if the fathers aren't able to pay the expenses.

Junior auxiliaries will try to furnish diversion for the children who live in orphanages and for the shut-ins. The ideal of the organization is to establish international understanding and good will among all children; to provide motives for purposeful school activities, and to carry out ideals and habits of service.

NEW EDUCATIONAL IDEAS ANNOUNCED

WITH the opening of the school term this fall the Junior Red Cross will be concerned with two new phases of education.

The first is the internationalization of general education. The other is the providing of scholarships for children of disabled soldiers, sailors and marines who wish to attend schools of the Federal Board for Vocational Education.

The closer later-relationship of nations, resulting from the war, is making necessary, among children everywhere, an understanding of the social, industrial and commercial situations as they exist now and as they will be apt to develop.

The teacher who keeps in touch with Junior Red Cross activities will have, this fall, a monthly bulletin that will contain true stories of conditions and incidents over the world and will make her geography and history lessons as live and interesting as a motion picture. These bulletin stories and articles are specially prepared to give a basic understanding of the world as it is in the process of change today.

In order that fatherless boys and girls may have an education that will fit them for taking care of the family dependent upon them, the Juniors will try to provide a scholarship for the use of the orphans of men who have died in service.

An innovation in school courses this year is First Aid, which will be taught by physical directors and other teachers who have taken the course and have qualified as an instructor.

BE A MEMBER OF THE JUNIOR RED CROSS

ANY American school, whether it be public, private or parochial, may have a Junior Red Cross auxiliary.

Membership in the Junior Red Cross may be obtained by applying to the nearest Red Cross chapter. As soon as the school enrolls as an auxiliary, every boy and girl in that school becomes a member of the Junior Red Cross.

Membership fees depend upon the size of the school. The yearly fee for each school is one-fourth as many dollars as there are pupils in the school. The Junior membership auxiliary fee is a school fund, not a sum to be collected from individual pupils. Some auxiliaries raise their money by sales or school entertainments. Others have "sacrifice boxes" where candy money is contributed to the Red Cross fund.

The chapter school committee receives the money from the school. Sixty per cent is forwarded to National Headquarters for the National Children's Fund, and forty per cent retained for neighborhood relief work.

THE THREE PURPOSES OF THE JUNIOR RED CROSS.

To join American children in service for needy children at home and overseas.

To give American children a chance to learn the satisfaction of unselfish service.

To bring about understanding among children of all countries.

Methodists Save Belgian and Serbian Orphans

Southern Church Buys Homes in Brussels and Belgrade and Supports Serbian Refugees in England.

Nashville, Tenn.—The Centenary Commission of the Methodist Episcopal Church, South, will specialize in caring for the children of Belgium, Serbia and other stricken countries of Europe, according to an announcement made by Dr. W. B. Beauchamp, the director-general. Dr. Beauchamp and a Church Commission have just returned from Europe.

For this purpose a large home, formerly a famous boys' school, has been purchased at Uccle, a suburb of Brussels. Several hundred children can be accommodated in this building, and the Methodists will assume entire responsibility for them and their future.

Another home has been bought at Belgrade, Serbia, and here the underfed orphans of the Southern Slavs will be given medical attention and cared for. A staff of women physicians, secured from Scotland, will be in charge of this home.

Still another orphanage has been taken over at Faversham, England. This home already contains more than a hundred Serbian children, orphaned refugees who were taken from their homes during the Austria invasion.

Plight of Children Deplorable.

"One can scarcely imagine the plight of the Belgian and Serbian children," declared Dr. Beauchamp. "The mines of Northern France have been flooded or filled with concrete by the Germans, and thousands of children will literally freeze to death this winter."

"I have seen them living in the old trenches and dug-outs left by the enemy, with little to eat save what is gathered from the passers-by."

Relief stations will be established as quickly as workers can be obtained and supplies sent. These
